Safe Biking for Adults

Tuesday, June 20th 6:30-8:00pm

You never forget how to ride a bike. If you're like many adults, you might need a refresher course in bike safety. Perhaps you're pulling that ten-speed out of storage for the first time in years. Perhaps a recent wreck or close call has made you suddenly aware of the hazards of the road. Or maybe you're teaching your kid how to ride a bike and want to set a good example. Whatever your motivation, taking a moment to learn (or relearn) the rules of safe cycling can help you avoid a serious injury. And make biking more fun! This is a presentation only class, no need to bring your bike. **Tom Sack, Instructor. Registration is required.**
