STORYTELLING 101

Storytelling is the Most Useful, Flexible, Cost-Effective Skill in Library Programming!

WHY STORYTELLING?

- Offers multiple options for interaction: Creative drama, puppets, singing, discussion, drawing...and develops curiosity, which leads to learning: Talk, read, write, play, sing...+ sensory
- Has multiple applications in public library children's services

- Storytelling works for all audiences -- infant, toddler, preK, school-age, special needs, ESL, tweens and teens, adult and family

THERE'S ONLY
ONE RULE:
STORIES MUST
BE ONES YOU
LOVE!

FINDING A STORY TO TELL: This summer's theme focuses on folktales, fairytales, legends, myths. The theme is divided into six sub-themes which we'll refer to throughout the workshop:

- **A New Twist on an Old Tale (mixed-up fairytales, retelling and interpretations)**
 - **Hero's Journey**
 - **Magical Creatures**
 - **Timeless Tales (genealogy, local legends)**
 - **Common Threads (tales told in many countries, slight costume/weaving theme)**
 - **Once Upon a Time (fairytales)**
-
- But first....

DISCOVER YOUR
STORIES!

SCAR-Y STORIES

ROLL-A-STORY

- 1 = a story about the best or worst thing you ever tasted
- 2 = a story about the best or worst thing you ever smelled
- 3 = a story about the best or worst thing you ever saw
- 4 = a story about the best or worst thing you ever heard
- 5 = a story about the best or worst thing you ever touched
- 6 = a story about water

How can these activities work in programming? How can they apply to the sub-themes?

- A New Twist on an Old Tale (mixed-up fairytales, retelling and interpretations)
- Hero's Journey
- Magical Creatures
- Timeless Tales (genealogy, local legends)
- Common Threads (tales told in many countries, slight costume/weaving theme)
- Once Upon a Time (fairytales)

THE STORYTELLER'S TOOLBOX

- IMAGINATION
- VOICE
- SOUNDS
- BODY

GRANDMOTHER SPIDER

- Where does the story take place?
- What happens to the light?
- Who knows and tells the others?
- Who goes first / why does he/she fail?
- Who goes second / why does he/she fail?
- Who goes last / how does he/she get the sun back into the sky?

How can this exercise be
used in programming?

How does it apply to the
sub-themes?

REFLECTION

STORYTELLING IS FOR EVERYONE!

- Use puppets, props and sensory techniques for infants, toddlers, preschoolers and children with special needs.
- Provide participatory storytelling options for preschool and primary grades
- SOME EXAMPLES...

DECORATIONS

This giant storybook is customizable – expensive but spectacular! Other decorations from this website are more affordable.

This Fantasy Forest Hanging Tapestry is very reasonable and quite striking!

Display magic wands, dragon footprints, Harry Potter memorabilia, mythological labyrinth, magical creatures (unicorns, dragons, fairies, mermaids, etc.)...endless possibilities!

PROGRAMMING!

“WHAT WOULD A STORYTELLER DO?”

NOTE: Storytelling can be a FACET of the program -- introducing a program, guest, craft or activity! Suggested intro stories will be provided for each theme.
